

We are aware that some children are anxious about the coronavirus and the uncertainty it has brought to their daily life. Manuela Molina has published a short book to support and reassure children. You may like to look at it before you download it to see if you feel it is suitable for your child.

*Dear families and educator all over the world,
I have created this short book to support and reassure our children, under the age of seven, regarding the COVID-19. This book is an invitation for families to discuss the full range of emotions arising from the current situation. It is important to point out that this resource does not seek to be a source of scientific information, but rather a tool based on fantasy. My recommendation is to print this material so children can draw on it. Remember that emotions are processed through repetitive play and stories read multiple times. Share COVIBOOK and help ease kiddo's anxiety all over the world.*

*With love,
Manuela Molina - the author*
